

WELCOME TO ENDNOTE X9

WHAT CAN ENDNOTE DO FOR YOU?

- Create a customized library for all your references.
- Organize your library into groups.
- Find and attach PDFs, sound files, videos to references directly from online resources.
- Read and annotate attached PDFs.
- Insert those references as you type your document (CITE WHILE YOU WRITE).

What can EndNote do for you?

- Share your references, custom groups and group sets across multiple computers, share with others and access your references anywhere there is an internet connection.

Share your library

Share your research with colleagues around the world

Invite team members to work from the same set of references, files and notes – no matter where they are located. Share your entire library or just a group with read-only or read-and-write access.

Share your library

ENDNOTE ANYWHERE

Two components, ONE Library

- EndNote Desktop- Download from UMIT
- EndNote Online- Register for an account

EndNote Desktop: Downloading from UMIT website

Go to the Calder Library Website: calder.med.miami.edu

Select **EndNote**
from the
E-Databases tab

The screenshot displays the Calder Library website interface. On the left, the 'E-Databases' tab is selected, showing a list of databases with 'EndNote' highlighted. The main content area features a search bar with tabs for 'uSearch', 'PubMed', 'UpToDate', and 'DynaMed'. Below the search bar is a 'Featured Resource' section for 'Quick Guide to Calder Library Remote Services'. The right sidebar includes 'Blog Archive', 'Biomedical Communications', 'Go Mobile', 'Remote Access', 'Access Privileges', and a 'Chat With Us' window.

EndNote Desktop: Downloading from UMIT website

CREATING A NEW LIBRARY

When you first open EndNote, go to FILE, then select NEW from the dropdown menu.

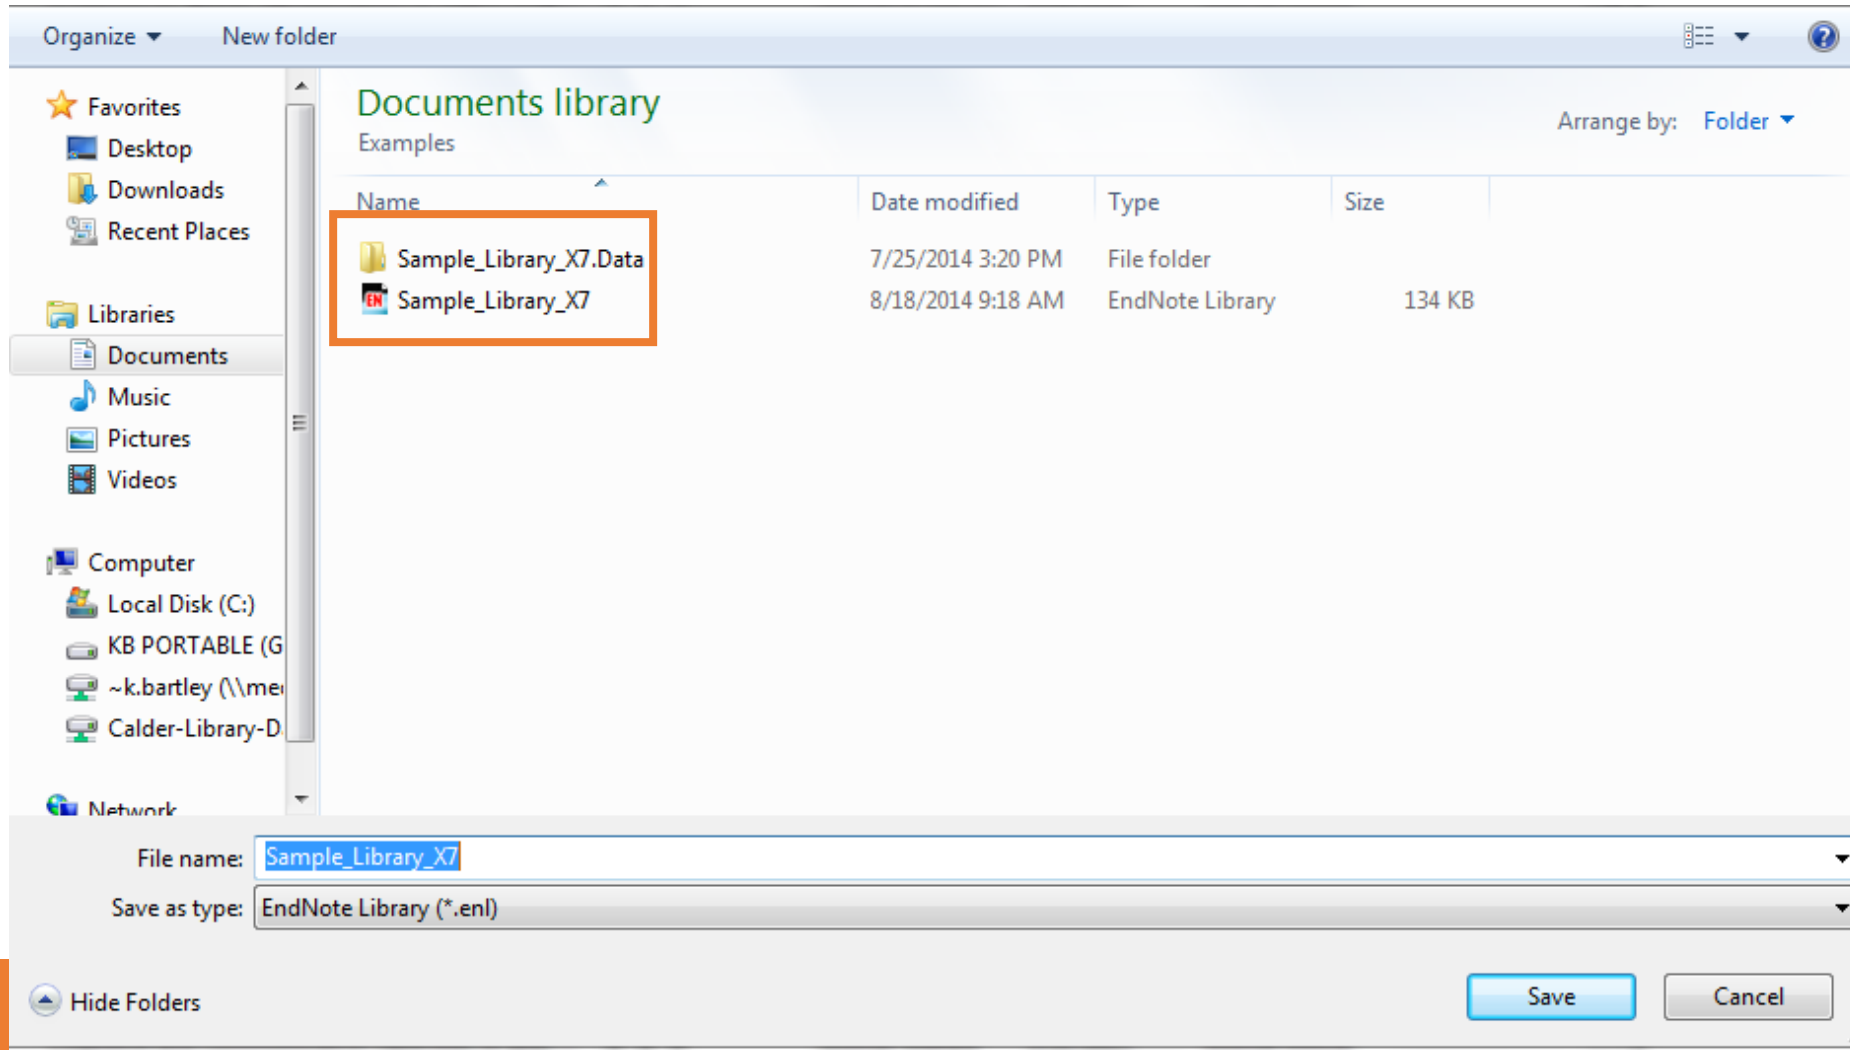

Click FILE, then
NEW
to create
a new library

Creating a New Library

- Opens a folder in the Documents folder on your computer.
- Name your library: Default Name is
My EndNote Library
- Creates a Library folder AND a Data folder

Opens a folder in the Documents folder on your computer.
Creates a Library folder **AND** a Data folder

Let's create a New Library!

- Click on EndNote on your Desktop
- Click on Create a new library in the dialog box.
- Name your Library in the documents folder

You can also create a New library in EndNote:

- Go to File, then New...
- Name your Library in the documents folder

ADDING REFERENCES

There are several ways to get references into your library:

- Direct Export from various databases into EndNote
- Search for references using EndNote
- Import References from a Word document
- Manually create new references

Direct Export References from Online Databases: PubMed

Your EndNote library should be open before attempting to import references.

The screenshot displays the EndNote software interface. The left sidebar shows a hierarchical view of the library, with 'Public Health Scientific Communications' selected, containing 25 references. The main window shows a list of references with columns for Author, Year, Title, Rating, Journal, Last Updated, and Reference Type. The 'Reference Type' column is set to 'Journal Article'. The status bar at the bottom indicates 'Showing 25 of 25 references in Group Set. (All References: 312)'.

Direct Export References from Online Databases: PubMed

Go to [PubMed](#)
under [E-Databases](#)
on the Calder
Library Home Page

The screenshot displays the Calder Library Home Page with a navigation menu on the left and a search interface in the center. The navigation menu includes: Library Hours (August 12, 2020, 7:30 AM - 10:00 PM, All library hours), E-Books, E-Databases (highlighted with a plus sign), E-Journals: A-Z, Newsletters and Reports, Resource Guides (plus sign), Sítios Eletrônicos de Medicina e Saúde Gratis, Sítios Eletrônicos Médicos Gratis, Special Collections, Tutorials (plus sign), and Videos and Images. The search interface features tabs for uSearch, PubMed, UpToDate, and DynaMed. A search box contains the text 'Everything' and a search button. Below the search box is a 'Featured Resource' section with a link to 'Quick Guide to Calder Library Remote Services' and a promotional banner for 'MEDICAL CAMPUS STUDENTS!' for the Fall Semester 2020. The banner includes images of a student in a lab coat and a student holding a '#FutureMD' sign. On the right side, there is a 'Blog Archive' section with a welcome message for 2020, a 'Biomedical Communications' link, a 'Go Mobile' link, a 'Remote Access' link, and an 'Access Privileges' link. At the bottom right, there is a 'Chat With Us' section with a chat window and a text input field.

Let's add References to our Library

Some interesting topics to search for in PubMed:

- Disease AND natural disaster
- COVID-19 AND health disparities
- Health care worker burnout
- Cultural diversity AND health
- Childhood immunization compliance

Direct Export References from Online Databases

Other Databases for Direct Export:

- Web of Science/Web of Knowledge
- Scopus
- CINAHL
- Other EBSCO Host databases
- Google Scholar

Searching for References Using EndNote

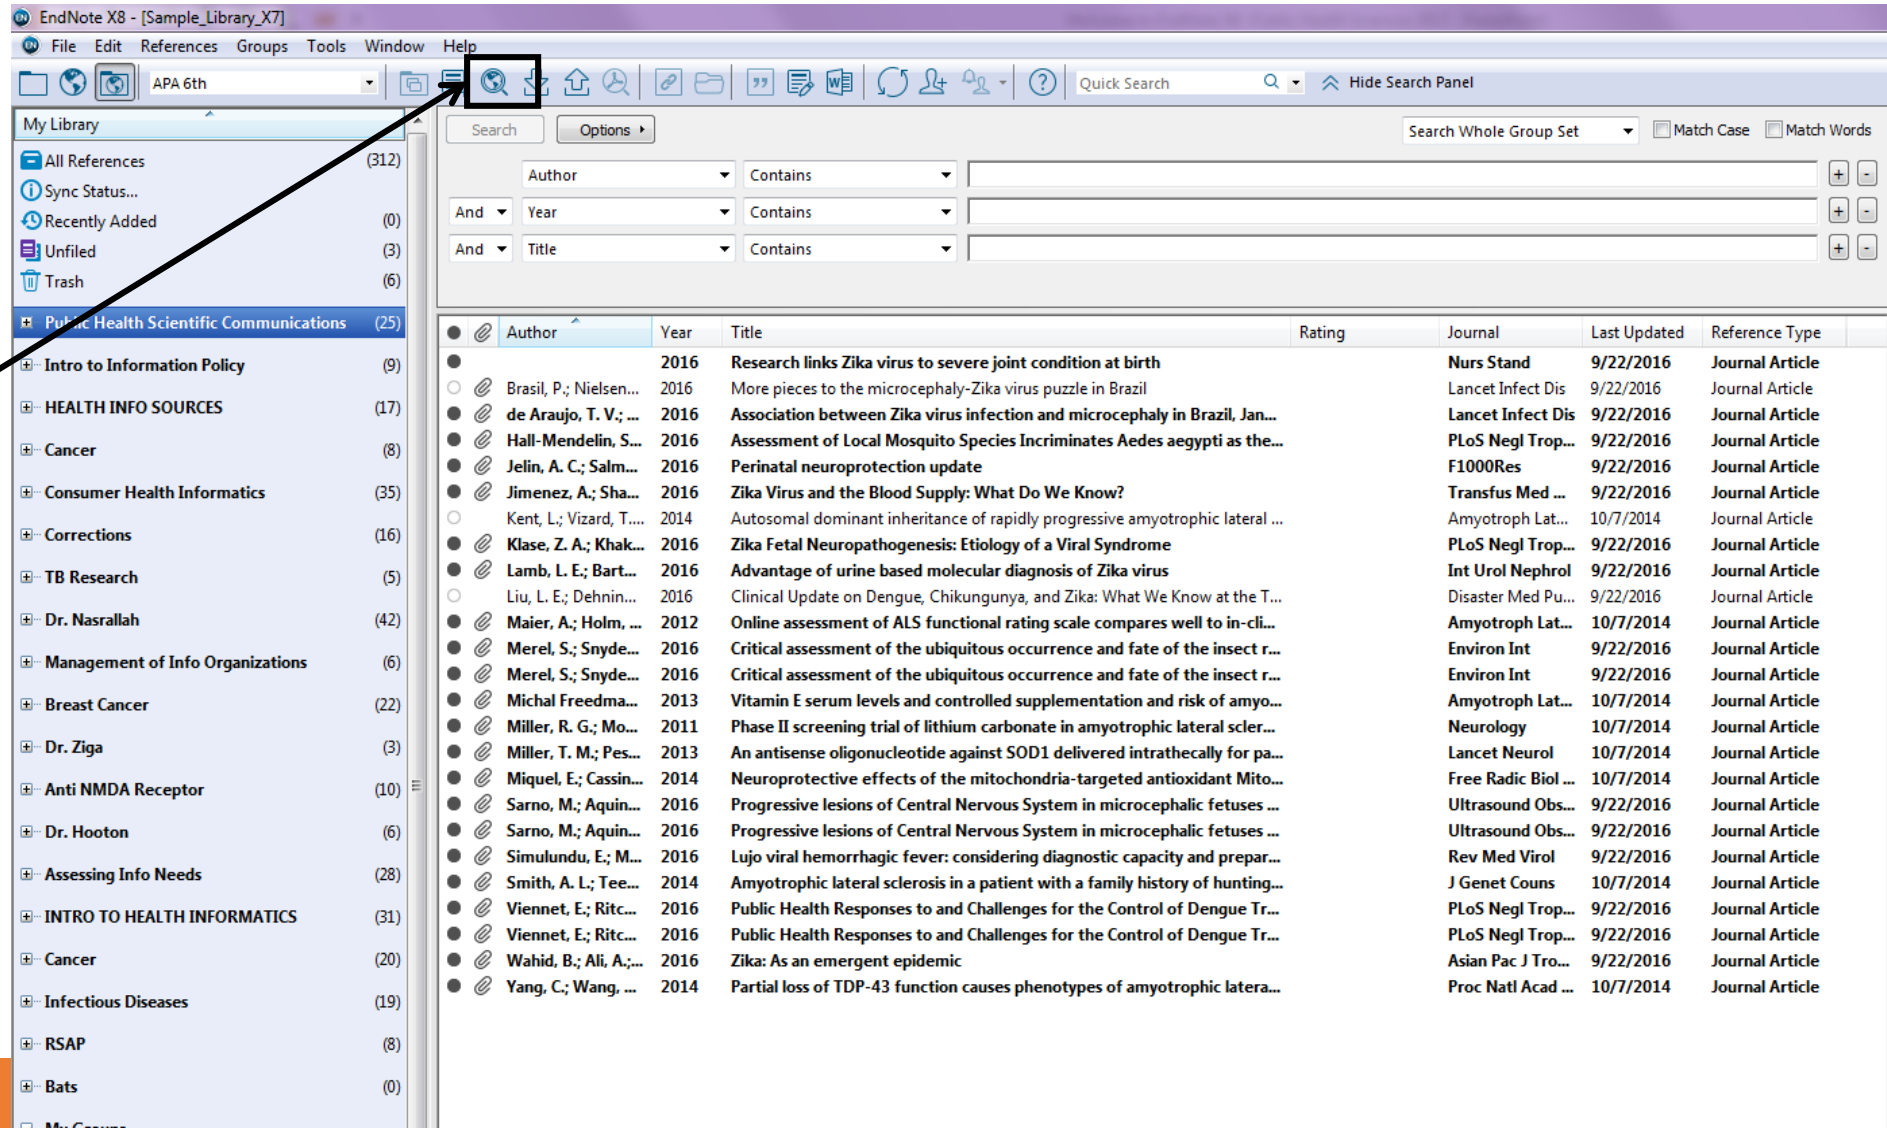

You can use EndNote to search databases:

- Automatically imports references into EndNote
- Can't choose which articles will be imported, imports all items in the search
- Doesn't import PDFs with references

Searching for References Using EndNote

Click on the
Online Search Button
(Globe with
Magnifying Glass)

Then select the
database to search for
references

The screenshot shows the EndNote X8 interface with the 'Public Health Scientific Communications' database selected. The search results table is as follows:

Searching for References Using EndNote

The screenshot displays the EndNote X7 interface. On the left is the 'My Library' pane with various folders like 'All References', 'Avian Intelligence', and 'Online Search'. The central search panel is active, showing a search box at the top with the word 'Search' highlighted. Below it, a search query is built with criteria: 'MeSH Terms' (Contains 'breast Cancer'), 'Year' (Contains '2014'), and 'Journal' (Contains 'Cancer'). A callout box with a black border and white background points to the search box, containing the text: 'Use the search box at the top to enter search terms, then click **Search**'. The right pane shows 'Reference Type: Journal Article' and 'No References Selected'. The status bar at the bottom indicates 'Showing 0 of 0 references in Group. (All References: 78)'.

Use the search box at the top to enter search terms, then click **Search**

Import References from a Word Document

- Open Word Document with a bibliography
- Go to the Tools tab, select Export to EndNote
- Select an option depending on the document:
 - Travelling Library: If the document has EndNote formatting already embedded.
 - Word Citations: If the document is a normal Word Document .

For Word Citations, this only works if citations were done using the Word References tab.

MANUAL ENTRY REFERENCES

- To create a reference, go to:
 - **References**
 - **New Reference**
 - Select **Reference Type**
 - Enter as much info as possible
 - Attach PDFs or other files relevant to the reference

Creating Groups for References- WHY?

- Easily find and reuse references from earlier projects, combine them into bibliographies for new projects.
- Use the groups feature, to create needed subgroups of references within a single Library.
- Store an unlimited number of references in a single Library on the desktop version.

Creating Groups for References

- Go to the Groups tab
- Click **Create Group Set**
- Name the set

To create groupings within a Group Set:

- Right click under the set you would like to put references
- Select **Create Group**
- Highlight the references you want to put in the group
- Drag over to group

Let's put our References in Groups

- Group by Subject Matter
- Group by Paper Topic or Title
- Group by Whatever you like!

Importing PDFs And PDF Handling: The MOST amazing thing about EndNote!

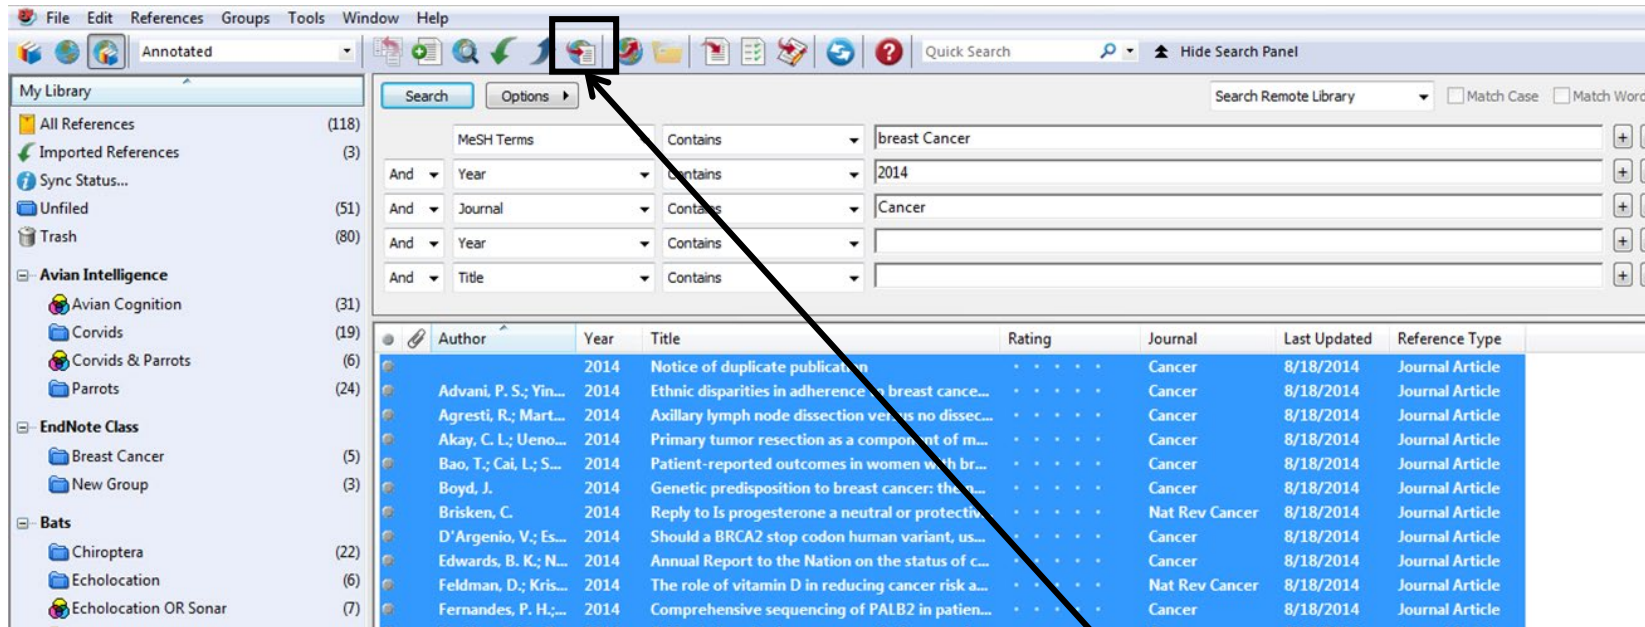

FIND FULL TEXT

IMPORT YOUR PDFs, THEN LET ENDNOTE FIND THE REST.

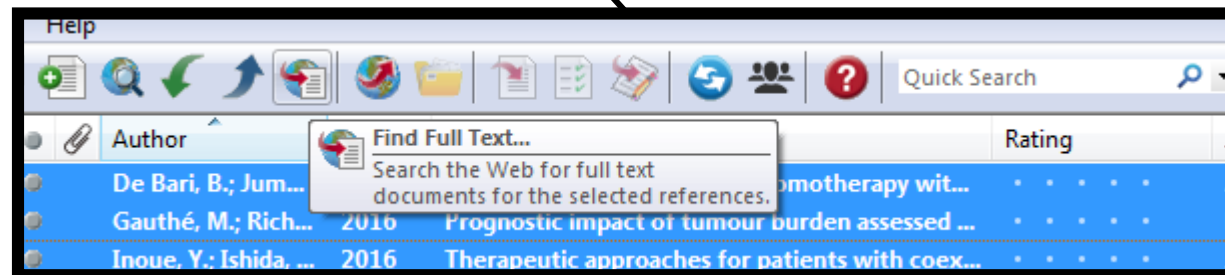

- Search hundreds of online **resources** to collect references and PDFs.
- Import the PDFs you have on your computer.
- Select the reference you want to find the full text for and let **EndNote** find them for you.
- Easily find and fill in missing and incomplete information.

Find PDFs for References in your Library: Online Resources

Select all the references
you want to find PDFs for.

Click on:
Find Full Text

Find PDFs for References in your Library: Online Resources

EndNote tracks the progress of PDFs found and puts them into 3 categories:

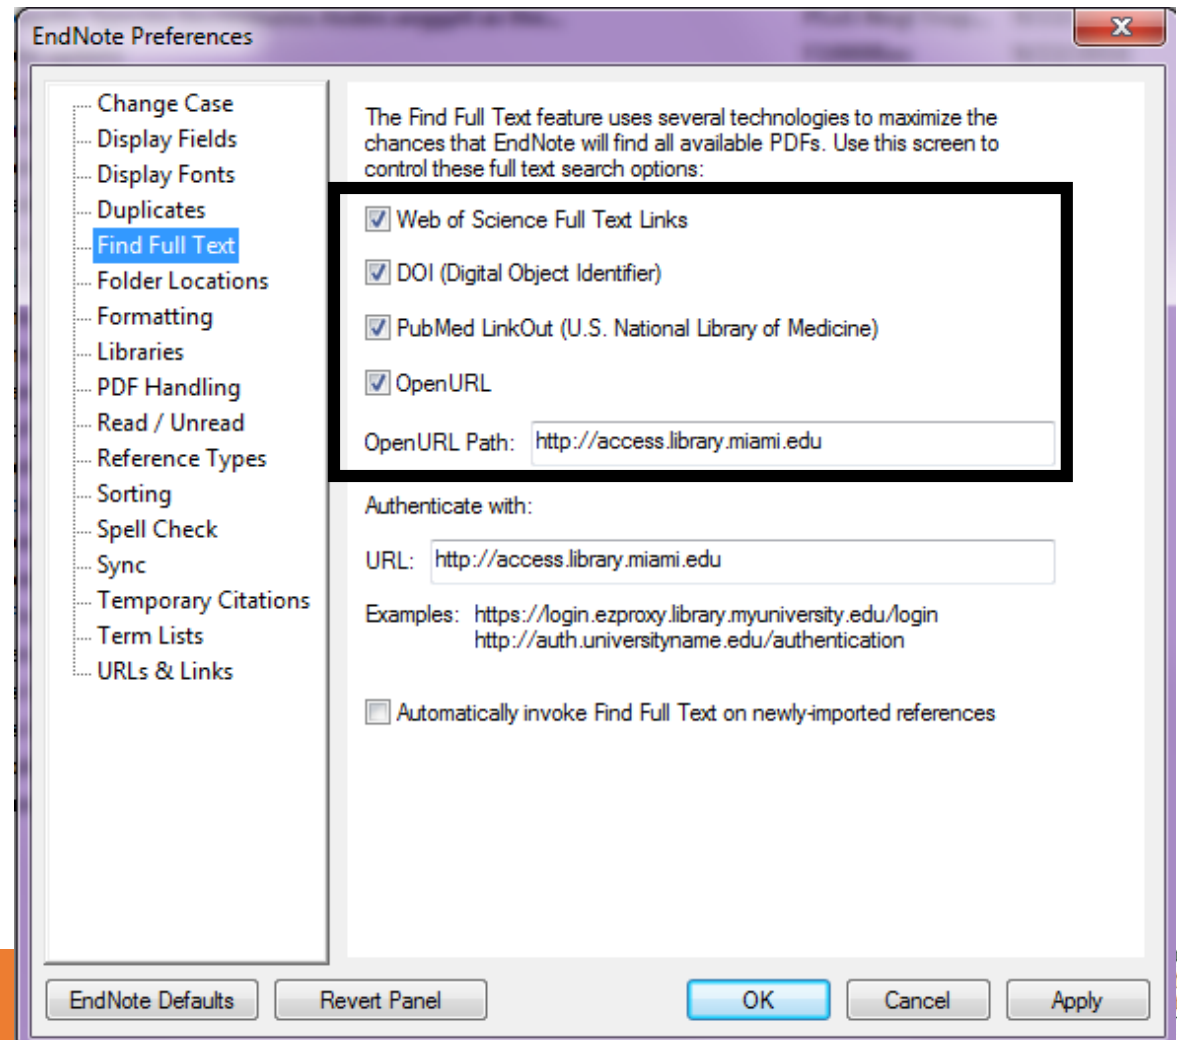

- Found PDF
- Found URL
- Not Found

The screenshot shows two sections of search results. The first section, 'Online Search', lists four databases: Library of Congress (0), LISTA (EBSCO) (0), PubMed (NLM) (40), and Web of Science Core Collection (TR) (0). The second section, 'Find Full Text', is highlighted with a black box and contains three categories: Found PDF (36), Found URL (2), and Not found (2). An arrow points from the text 'Found PDF', 'Found URL', and 'Not Found' in the text block to the 'Find Full Text' section.

Section	Category	Count
Online Search	Library of Congress	(0)
	LISTA (EBSCO)	(0)
	PubMed (NLM)	(40)
	Web of Science Core Collection (TR)	(0)
Find Full Text	Found PDF	(36)
	Found URL	(2)
	Not found	(2)

Find PDFs for References in your Library: Find Full Text Preferences

EndNote uses several pathways to find full text PDFs. To connect to Calder's resources, make sure you are connected using remote access.

FIND PDF'S FOR YOUR REFERENCES

USING PDFS IN ENDNOTE

- Open PDF full screen
- Print PDF
- Email PDF
- Highlight
- Sticky Notes
- Always remember to **SAVE** your changes!

MANUALLY ATTACH PDFS FOR REFERENCES YOU ALREADY HAVE

- Select the reference you want to attach the PDF to
- Go to the **References** tab
- Click **File Attachments**
- Click **Attach File**

ENDNOTE ONLINE

- Set-up your personal EndNote online account
- Sync your files across platforms
- Access your references and file attachments from anywhere
- Share reference groups with colleagues and collaborators

ENDNOTE SYNC

Sync your references, custom groups & group sets across multiple computers, share references with others and access your references anywhere there is an internet connection.

SYNC YOUR LIBRARY

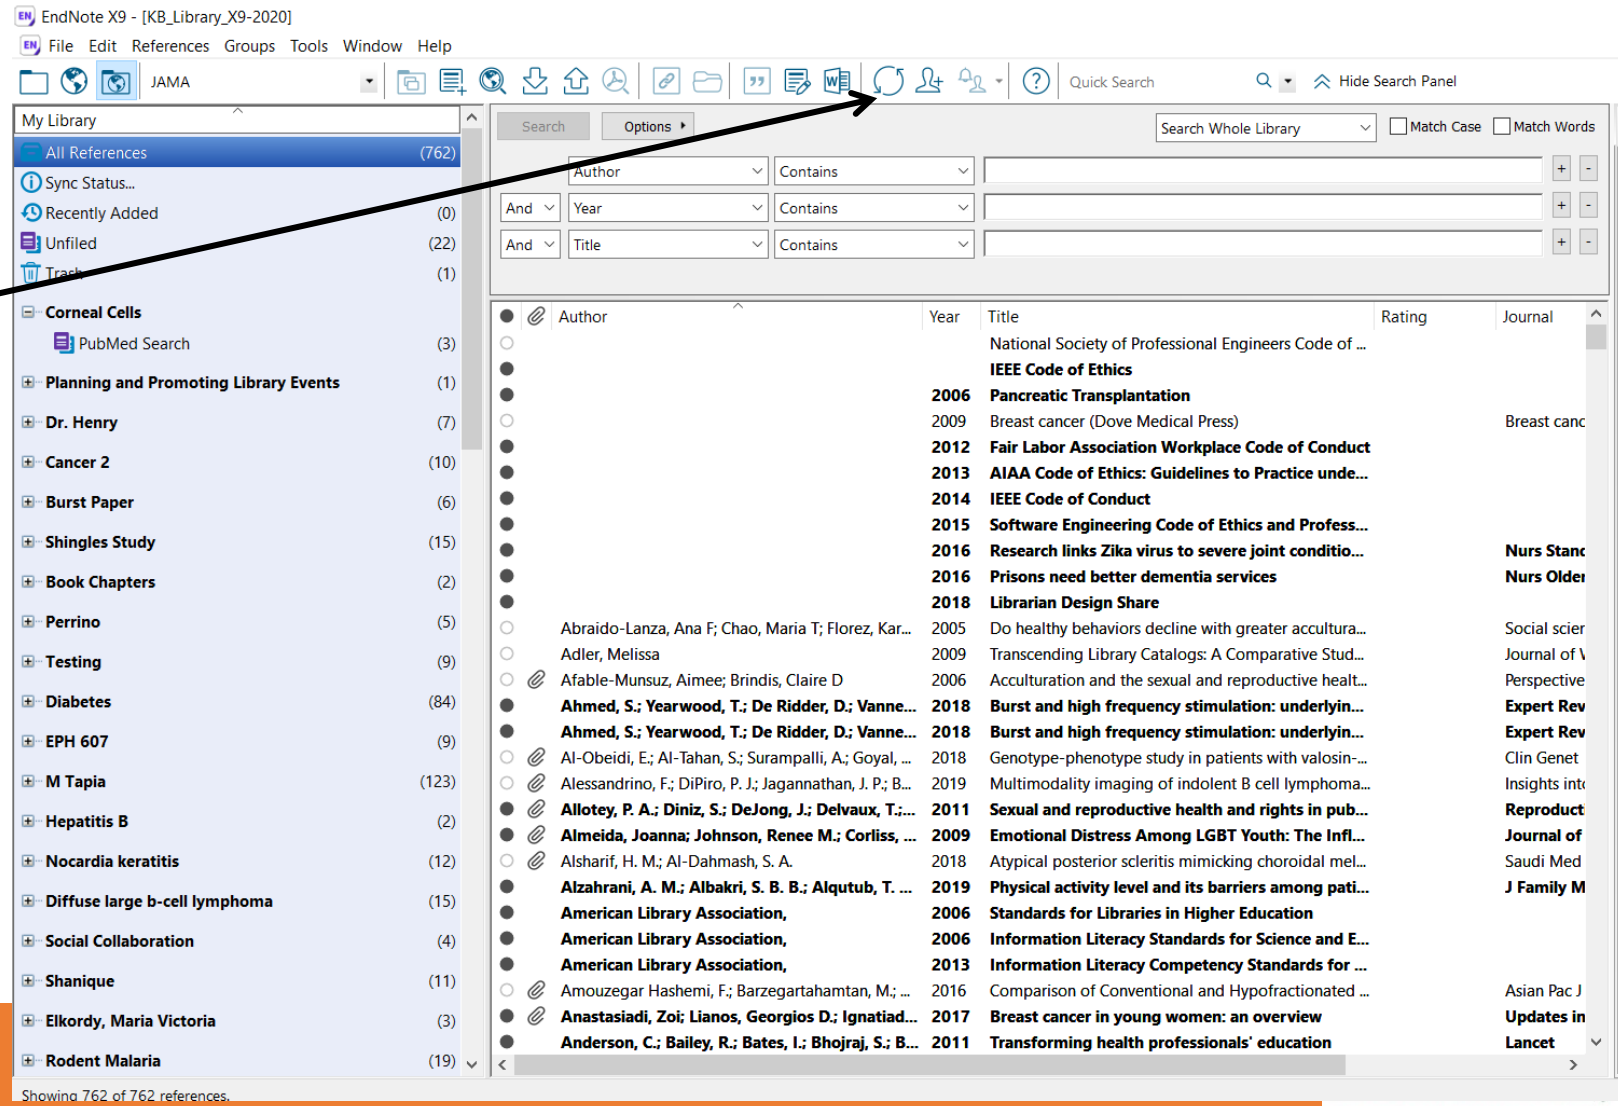

Connect your desktop, online & iPad libraries

To access your research library anywhere, set up an EndNote account and link it to your X7 desktop client

The graphic illustrates the synchronization process. It features a laptop on the left, a tablet on the top right, and a desktop monitor on the bottom right, all connected to a central cloud icon. Dotted lines with orange arrowheads show the flow of data between the devices and the cloud, indicating that references are synchronized across all platforms.

Sync your EndNote Desktop library to your EndNote Online library

Click the **Sync Library** button to synchronize your desktop and online libraries.

The screenshot shows the EndNote X9 Desktop interface. The 'Sync Library' button is highlighted with a black arrow pointing from the text box on the left. The interface includes a menu bar (File, Edit, References, Groups, Tools, Window, Help), a toolbar with various icons, and a search panel. The main window displays a list of references in a table format.

Calder Library Training Sessions

Learn the basics of the EndNote, Mendeley and RefWorks Citation Management software from Calder Librarians from live training sessions and video recordings.

THOMSON REUTERS
ENDNOTE

[EndNote: Calder Library Video Training Session](#)

EndNote stores references you collect from databases, library catalogues or create manually. The program automatically formats the saved references in any standard citation format. Using EndNote, you can cite as you type your paper and create your bibliography by pulling from your stored references. EndNote is also capable of saving full-text articles (in PDF format and/or in text), organizing image files, searching online and much more.

 **MENDELEY**

[Mendeley: Calder Library Video Training Session](#)

MENDELEY Institution Edition (Elsevier) is a reference manager and academic social network that can help organize documents, collaborate with others online, and discover the latest research. This session will provide a comprehensive introduction to Mendeley with hands-on exercises on how to organize your research library, collaborate with others online, and discover relevant papers in Mendeley.

 **RefWorks**

[RefWorks: Calder Medical Library Video Tutorials](#)

RefWorks is a web-based bibliography and database manager. This is an introductory class in which participants will learn how to use RefWorks to create personal databases of imported references from online databases and how to store, retrieve, and format them for publication. If you spend more than an hour formatting your references for your paper's bibliography then you are working way too hard. We will show you how citing within your paper and creating your paper's bibliography can take only minutes.

About EndNote

About EndNote

EndNote is reference management software with features to—

- Keep all your references and reference-related materials in a searchable personal library.
- Synchronize your references between up to three of your personal computers, an online library, and your iOS device, through EndNote Sync. (You must be the owner and user of all three computers.)
- Share your references with collaborators through EndNote Sync.
- Use your references in word-processing documents to create formatted citations and bibliographies or independent reference lists.
